Now that you know, that's one more person they'll have to kill.

### **The War Games and Military Drills of 9/11 & What They Mean**

An incredible number of war games and exercises occurred on 9/11, more than any date in the long history of the United States. These actions by our national defense played a role in what happened (and what didn't happen) on that day. Here are the operations that were directly affecting the events taking in New York, Pennsylvania, and Washington DC:

**OPERATION NORTHERN VIGILANCE:** This was planned months in advance of 9/11. On the morning of 9/11, jet fighters were removed from patrolling the US east coast and sent to Alaska and Canada on simulated missions. Needless to say, this reduced the number of fighter planes available to protect the east coast and the targets.

**BIOWARFARE EXERCISE TRIPOD II:** A huge FEMA unit arrived in NYC on September 10th to set up a command post located at Pier 29 for a biowarfare exercise scheduled for September 12. Mayor Giuliani used this as his command post on 9/11 after he evacuated the initial command post at WTC Building #7. Strangely, Giuliani claimed he knew in advance that the Trade Center buildings were going to collapse, and quickly moved his command post to Pier 92.

"We were operating out of there when we were told that the World Trade Center was gonna collapse" Giuliani told Peter Jennings of ABC News. How did Giuliani know the towers were about to collapse when the firefighters and police officers at the scene didn't?

**OPERATION VIGILANT GUARDIAN:** This military exercise simulated hijacked planes in the northeastern sector. Strangely, it started at the same time the real hijackings did. Lt. Col. Dawne Deskins, NORAD unit's airborne control and warning officer, was overseeing the exercise. At 8:40 am she took a call from Boston Center which said it had a hijacked airliner. Her first words, as quoted by Newhouse News Service were, "It must be part of the exercise." This is another example of how the numerous drills on the morning of 9/11 distracted NORAD so that the real hijacked planes couldn't be intercepted in time.

**OPERATION NORTHERN GUARDIAN:** This exercise is considered to be part of Vigilant Guardian, relating to simulating hijacked planes in the northeastern sector.

**OPERATION VIGILANT WARRIOR:** This was referenced in Richard Clarke's book 'Against All Enemies'. It is thought to have been the 'attack' component of the Vigilant Guardian exercise.

**BOMBING PRACTICE:** The Air National Guard's 177th Fighter Wing, based at Atlantic City International Airport in Pomona, were just eight minutes away from New York and could have easily intercepted both Flight 11 and Flight 175. Under NORAD procedures that date to the Cold War, two F-16 fighters from the 177th are parked around the clock on the Atlantic City runway. Pilots wait in a nearby building, ready to scramble. But on the morning of 9/11, for the first and only time in their history, the F-16's were performing mock bombing runs over an empty stretch of the Pine Barrens near Atlantic City after being decommissioned from their usual role of protecting the skies of the east coast. It was only after both trade towers were hit that the two F-16s landed and were refitted with air-to-air missiles, then sent aloft - too late to save anyone.

**OPERATION SWIFT SWORD:** Landed 23,000 British troops in Oman on the day before the attacks. These troops would soon assist in the Afghan invasion. This was the largest assembly of British troops anywhere in the world since World War 2.

**NAVAL FORCES:** At the same time, two U.S. carrier battle groups arrived in the Gulf of Arabia simultaneously on September 10th - the first time this has ever happened.

**OPERATION BRIGHT STAR:** 17,000 U.S. troops joined 23,000 NATO troops in Egypt for the largest military exercise in NATO history. These troops later deployed to Afghanistan.

All of these forces were in place before the first plane ever hit, an unprecedented and inexplicable confluence of men and weapons of historical proportions.

Four months before 9/11, by Presidential order, Vice President Dick Cheney had been given direct control of all war games and drill operations. He was solely in charge of all of the overlapping NORAD drills and war games taking place on the morning of 9/11.

In addition to the war games Cheney was supervising on the morning of September 11, the Vice President was also in command of the government and military response to the real attacks. With Bush out of town, Cheney was taken by the Secret Service to an underground bunker in the White House called the Presidential Emergency Operations Center. From there Cheney directed the US government's response to the unfolding attack.

Secretary of Transportation Norman Mineta was in the Presidential Emergency Operating Center with Vice President Cheney as Flight 77 approached Washington, D.C. On May 23, 2003 in front of the 9/11 Commission, Secretary Mineta testified:

"During the time that the airplane was coming in to the Pentagon, there was a young man who would come in and say to the Vice President, 'The plane is 50 miles out' 'The plane is 30 miles out.' And when it got down to 'the plane is 10 miles out,' the young man also said to the Vice President, 'Do the orders still stand?' And the Vice President turned and whipped his neck around and said, 'Of course the orders still stand. Have you heard anything to the contrary?'" Mineta stated that he did not know what the "orders" were because he wasn't there when they were given. What were those mysterious orders? Was Cheney ordering the anti-aircraft defense to hold their fire? Was he ordering fighters not to attack? He must have been ordering something that surprised the young military man, prompting him to ask the question.

It is not a coincidence that all of these troops and ships were moved to strategic areas of the Persian Gulf just days before 9/11. Remember, this was the largest concentration of troops since WW2. It is also not a coincidence that all of the military responders were sent off-station during the exact time of the attacks. This is evidence that someone high up in the US Government knew 9/11 was going to happen, and took steps to make sure that it did.

The only alternate explanation would be that all of this is a mere coincidence. The FEMA drill, the NORAD hijacking exercises, the Pine Barrens bombing practice, the Alaska exercise, and the unprecedented deployments to the middle-east just all happened to occur at the same time, while the greatest terror attack in history was going down. Here is the math:

Assuming that each of these events happens once a year (they don't), the odds of these allegedly unconnected events happening on the same morning are less than one in ten thousand trillion.

This was no coincidence. Which means there is an enemy within our own gates. ⚔️ BAD SAM

When the going gets tough, the tough drink whiskey.
